

## **Attention All Middle & High School students!**

**Are you good with Technology? If so this may be the thing for you!**

So come have some fun, become a student volunteer and help the Trumbull Nature & Arts Center with their website.

Students working on this project will work with student website coordinator, Mitchell Lewis, and TNAC Youth Outreach Coordinator, Kevin Malone to help create new webpages to post on the site and maintain these new pages and also revamp some old ones to create an overall attention grabbing website.

This can count as community service too!

No Technical Knowledge is required! Who knows you may even learn a thing or two about websites!

To volunteer please contact Kevin Malone, Youth Outreach coordinator, at (203) 396-0641 or [Malone\\_env@yahoo.com](mailto:Malone_env@yahoo.com).
